New! HB2011, K-12 Legislative Update and Much More!

Mark Kinsey, Director of Outreach and Education

For the past year, Mohave has been utilizing the Training Corner of our web site to put new information regarding the American Reinvestment and Recovery Act (ARRA) as well as other new and timely information. In the case of ARRA, we have posted what members and vendors should consider when using Mohave contracts or other contracts with ARRA funds.

Our latest update to this section is a summary review of HB2011 and the items that will directly impact K-12 schools. In addition, Mohave has posted the entire HB2011 and highlighted the change areas.

Legislative Updates
