

Contract Pricing page is ready to assist members research pricing

Craig A. McKee, CPPB, Director of Outreach and Education

Since we offered member access to our pricing files online, more than 250 Arizona entities, (School Districts, Cities, Counties and more) have requested and were granted access. This means of course, 150 other members don't have the login and password necessary to easily research contract pricing, or review quotes.

Registered members can go to www.mesc.org, > **Purchasing Services**, > **Member Information** > and then select **Contract Pricing** from the menu under **Member Information**, to reach the login page. The page includes integrated help files, to help you get started.

Members with access to this powerful resource can review contract price quotes, check information on shipping charges, research volume discounts and more. Pricing files for over 110 contracts is updated daily in order to make your due diligence quote verification, or quick budget estimate accurate and timely.

In case you are one of our members who aren't yet registered, or if you've just misplaced your information, you can obtain a login and password by e-mailing our IT Manager, Jim Dugo, at Jimd@mesc.org. Login information is unique to each member entity. The login and password may be shared within your organization with purchasing, accounts payable, and others who need access to pricing data.

Vendors with pricing questions should contact their assigned contract specialist. To find the Mohave personnel assigned to a Mohave Contract, please use our [Product/Vendor Finder](#). For help with using our site, contact Mohave Outreach at (602) 277-4290.
